

SILPA P

PHP Laravel Developer | PHP | Laravel | MySQL | REST APIs
Phone: +91-7306907159 | Email: silpakumar20@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Backend Developer with 2+ years of experience building scalable, large-scale SaaS applications using PHP and Laravel. Skilled in REST API development, RBAC systems, and third-party integrations including OAuth 2.0. Experienced in improving backend performance by up to 50% through MySQL query optimization. Hands-on with GitHub Actions CI/CD pipelines, Laravel Sanctum authentication, and Agile Scrum methodologies. Experienced in leveraging AI-assisted development tools such as GitHub Copilot, ChatGPT, and Claude Code for code generation, debugging, documentation, refactoring, and productivity enhancement.

TECHNICAL SKILLS

Languages: PHP (Primary), JavaScript (Basic), HTML, CSS
Frameworks: Laravel, Laravel Sanctum
Backend: REST API Development, MVC Architecture, RBAC, OAuth 2.0, Secure Coding, Eloquent ORM
Database: MySQL, Query Optimization, Indexing, Joins, Pagination
Tools: Git, GitHub, Postman, Composer, GitHub Actions, CI/CD, GitHub Copilot, ChatGPT, Claude Code
AI-Assisted Development: Code Generation, Debugging, Refactoring, Documentation, Test Case Creation
Methodologies: Agile, Scrum

WORK EXPERIENCE

Backend Developer | Dibasys Pvt Ltd, Kerala January 2024 - Present
Project: Swift Checkin - Workforce Management SaaS Platform

- Developed backend modules for timesheets, payroll, and invoices supporting 35+ users
- Designed and secured RESTful APIs using Laravel, improving system integration by 40%
- Built RBAC system for multi-level approval workflows, reducing manual effort by 30%
- Integrated Xero APIs (OAuth 2.0) for automated timesheet and employee data synchronization
- Optimized MySQL queries using indexing, joins, and Eloquent ORM, reducing execution time by 40 to 50%
- Enhanced performance for large datasets using pagination, filtering, and sorting
- Configured GitHub Actions CI/CD pipeline for automated deployment workflows
- Utilized AI-assisted development tools (GitHub Copilot, ChatGPT, Claude Code) for code generation, debugging, refactoring, documentation, and accelerating development workflows
- Ensured data integrity by applying server-side validation and sanitization on all inputs
- Diagnosed and resolved 25+ critical production issues in collaboration with Agile Scrum teams

PROJECTS

SaaS Subscription Management API | PHP, Laravel, MySQL, Laravel Sanctum

- Built full-lifecycle subscription system covering plan creation, upgrades, and cancellations
- Reduced duplicate subscription errors by 80% using strict validation logic
- Implemented secure token-based authentication using Laravel Sanctum
- Designed scalable REST API endpoints with consistent, structured JSON responses

Employee Attendance and Leave Tracker API | PHP, Laravel, MySQL, REST API

- Built REST API to manage employee check-ins, check-outs, and leave requests with role-based access
- Optimized date-range attendance queries using MySQL indexing and Eloquent ORM
- Enforced input validation rules to prevent invalid entries and maintain data integrity

EDUCATION

B.Tech - Computer Science Engineering | PRIST University, Thanjavur 2025

LANGUAGES

Malayalam (Native) | English (Professional) | Tamil (Intermediate)
